Access to Fair Financing

Community members that qualify for DCAP incentives may qualify for a car loan with a maximum interest rate of 8%. These car loans are designed to help all community members including those with no credit or challenged credit.

Financing Assistance – What is it and how does it work?

Incentives of up to $7,500 to be used as a down payment to purchase a used, new or leased plug-in hybrid electric vehicle (PHEV), a battery electric vehicle (BEV), or fuel cell electric vehicle (FCEV).

DCAP offers two incentives to help you access a clean-air vehicle:

1. **Clean Cars 4 All:** up to $12,000 to scrap and replace your qualified vehicle.
2. **Financial Assistance:** up to $7,500 to purchase or lease a clean air vehicle. **Charging Incentive:** A $2,000 charging incentive is also provided to cover the purchase and installation of in-home charging equipment or a charge card to access public charging stations.

Both incentives offer down payment assistance in the form of grants that do not have to be paid back.

Save money by switching to a Clean Air Vehicle with DCAP!
